

Fiber Town Internet Service Sign-Up Sheet

Yes, I want high-speed internet service!

I understand that for my town to qualify as a "Fiber Town" and be part of the network, 40% of the households in town must pre-sign and make a \$49 deposit towards the first month's service, to ensure that there are enough customers in town so that building and operating the network here will be financially viable.

I am a resident of _____ and want to do my part to ensure that we qualify as a Fiber Town and become part of the WiredWest network.

Count me in! I want fast internet service at 25 Mbps for \$49 a month.

Note that you will be able to upgrade to faster speeds (see below) once the network is ready to serve you. I am providing my contact information below as well as indicating what other services I may be interested in. My \$49 deposit check is enclosed, payable to WiredWest. Or I may pay securely by credit card at www.wiredwest.net, in which case I need not return this form. If my town qualifies by June 30, 2015, I agree that my deposit will be held in escrow until service becomes available, which may not be for two years or more, and then it will be applied to my first month's bill for service, at which time I will receive a service agreement. If my town fails to qualify my deposit will be returned to me promptly. If I move or change my mind, I may request in writing that my deposit be refunded in full with interest.
